Ajit Shitole

Product Designer · UX/UI · Enterprise Digital Products · B2B · Web & Mobile · AI-Assisted Product Design

Designer with 20+ years of experience across digital design, UX/UI, product design and creative leadership. Over the past several years, I have focused on complex **enterprise B2B products**, translating business processes and technical requirements into practical, scalable user experiences.

At CCTech, I lead UX/UI for digital platforms supporting utility-scale solar and wind projects. I work with business analysts, product stakeholders, developers and clients across **requirement discovery**, **To-Be process definition**, **user journeys**, **information architecture**, **interface design**, **testing** and **developer handoff**.

My earlier experience in advertising and digital design has given me a strong foundation in visual communication, interaction design and creative problem-solving. I now combine that experience with **product thinking**, **enterprise UX** and **AI-assisted prototyping and development**.

Role	Design Lead, CCTech
Experience	20+ years · since 2003
Focus	Enterprise B2B web apps, data-heavy UI, design systems
Product UX	Since 2023 · design 20+ years
Open to	Senior Product Designer · UX Lead
Based in	Pune · Mumbai
Languages	English, Marathi, Hindi
Email	ajitart@gmail.com
Phone	+91 97688 44878

CCTech

Current

Design Lead · Product & UX

Feb 2025 – Present Pune

Lead product design and UX/UI for a suite of enterprise B2B digital platforms supporting Adani's utility-scale solar and wind projects. Work end-to-end with business analysts, developers, product stakeholders and clients—from process discovery and To-Be definition through information architecture, user journeys, UX/UI, testing and developer handoff.

Product ecosystem: GatiShakti — location & expansion intelligence → **DRS** — work & materials / supply chain → **Pulse** — inspection & vendor billing → **HOTO** — handover to operations

Design process (DRS, Pulse, HOTO)

1 Requirement discovery — 2 To-Be process — 3 Client alignment — 4 User journeys — 5 Wireframes — 6 UI — 7 User testing — 8 Developer handoff

GatiShakti · Geospatial Business Intelligence Platform UX/UI redesign

Context: Adani's geospatial decision-support platform combining location, infrastructure and business information to help teams assess regions and identify expansion opportunities.

My role: led the UX/UI redesign of the existing platform to improve usability and reduce complexity.

- **Evaluated the existing experience** to identify usability issues, visual complexity and friction in key tasks.
- **Simplified the interface** and established clearer **information hierarchy** for map-heavy, data-intensive screens.
- **Redesigned workflows** for business and engineering users with different information needs.
- Focused the design on turning complex **geospatial and business data** into clearer, actionable information.

DRS (Digital Routing System) Enterprise B2B · Supply Chain Management Platform · SAP-integrated

Led the product design direction and end-to-end UX/UI for a supply chain management platform supporting solar and wind construction operations.

- Worked with BAs, developers and client stakeholders across **4 business functions**, aligning business requirements, technical constraints and user needs.
- **Co-defined the To-Be business process** across 8 project stages with the BA and supported **client alignment and sign-off**.
- Shaped the **information architecture**, **role-based access model** and role configurator supporting 16 user roles.
- Designed **workflows** across service orders, BoQ and drawing management, plant-map work allocation, material requisitions, inventory checks, approvals, quality and measurement certificates.
- Worked with developers to understand **SAP integration** and system dependencies and translate backend processes into usable front-end experiences.
- Established reusable **UI components**, colour tokens and light/dark themes to improve consistency and scalability.
- Directed **data-dense dashboards** and 14 reports/KPIs, with **clickable prototypes** for stakeholder reviews and decision-making.
- Led **user testing** and design iterations, incorporating client feedback and guiding **developer handoff**.
- **Outcome:** Product is **live in production**, replacing paper-based tracking with a unified digital platform; some backend integrations remain in progress.

Pulse · Request for Inspection (RFI) Quality inspection & vendor billing

Designed the end-to-end RFI workflow connecting vendor submission, site-engineer inspection, approval/rejection, status tracking and invoice-payment release.

- **Outcome:** Live in production and transitioned to maintenance.

HOTO · Handover / Takeover to Operations Plant commissioning

Designed the plant handover and cross-verification workflow, including inter-team checks, approvals and sign-offs required before operational commissioning and grid connection.

- **Outcome:** Live in production and transitioned to maintenance.

Selected Product Project काम की झलक

Sarathi · Medicine Reminder App

Independent product concept · Product design + development

A product concept for senior citizens to manage medication schedules around meals. Owned the product concept, UX research assumptions, personas, user flows and UI design, and built the prototype using **Figma**, **React Native (Expo)** and **PocketBase** with AI-assisted development.

Core Expertise हथियार

UX & Product Design	Requirement discovery & workshops, Process mapping & To-Be definition, User journeys & flows, **Information architecture**, Wireframing & prototyping, **Usability testing**, Interaction design, Responsive web & mobile
Enterprise UX	**Enterprise B2B applications**, Complex business workflows, **Role-based access (RBAC)**, Approval workflows, SAP / ERP integration flows, Data-dense dashboards, GIS & map-based interfaces, UX solution architecture
Design System	Component libraries, Design tokens, Light / dark themes
Collaboration & Delivery	**Agile / Scrum**, Design-to-development handoff, Working with BAs & developers, Client & stakeholder communication, Design leadership
Tools	**Figma**, FigJam, Claude Code · AI-assisted development, Adobe Creative Cloud, Git & GitHub

Experience चलते-चलते...

Oct 2024 – Jan 2025 · Mumbai

Creative Director

Ventures Advertising

Led the creative team for government-sector clients, from concept to campaign execution.

Aug 2023 – Sep 2024 · Hyderabad

Creative Solution Lead

Brane Enterprises · Digital Transformation GSI

Designed UI/UX for IT products and websites, including **user journeys and conversation flows for LLM chatbots** and interfaces for AI products. Also contributed to branding, marketing, brand videos and client presentation decks.

Aug 2021 – Jul 2023 · Mumbai

Creative Director

Creativeland Asia

Led integrated digital, social, TVC and print campaigns for Pizza Hut, Netflix and Park Avenue, from concept through production.

Aug 2019 – Jul 2021 · Mumbai

Associate Creative Director

VMLY&R

Designed **digital experiences and landing pages** for Big Bazaar and Pantaloons and led digital platforms and social campaigns for these brands and ICICI Bank.

Sep 2017 – Jul 2019 · Mumbai

Associate Creative Director

The Digital Street

Led digital experiences and social campaigns for Axis Bank, Dolby, MTR Foods, ITC Engage and DHL.

Oct 2013 – Aug 2017 · Mumbai

Creative Controller

OgilvyOne Worldwide

Led digital strategy and platform experiences for Vodafone, Madhya Pradesh Tourism and Reliance General Insurance; #DarkTravelTales won two Kyoorius Blue Elephant awards.

Earlier roles

Senior Art Director GreenApple Design · 2012 – 2013	**Art Director** 3 Brothers & Fils · 2011	**Art Director** Collateral · 2010
Art Director OgilvyOne Worldwide · 2008 – 2010	**Group Head** Thoughtrains Design · 2006 – 2008	**Senior Art Director** Jupiter Design Studio · 2004 – 2006

Awards & recognition जीत की ज़िद

2016	Kyoorius Blue Elephant · Use of Social Media	Winner
2015	Ogilvy's Finest · The Envies	Winner
2014	ECHO · Effectiveness	Bronze
2014	ECHO International	Finalist
2016	Kyoorius Blue Elephant · Direct Innovation	Winner
2015	DMAI · Art Direction	Bronze
2014	DMA Asia ECHO	Bronze
